1. The amendment after final rejection filed in Paper No. 17 on Jul. 23, 2001, was not entered because it was improper. The amendment amends claims that are not part of the instant application. The amendment filed after final rejection in Paper No. 14 on Apr. 16, 2001, adding claims 16-25, was not entered. See the Advisory Action form PTOL-303, mailed on May 11, 2001, Paper No. 16, item (3). Thus, claims 16-25 are not part of the application. Claims 6-15 are the pending claims in the application. Applicants cannot amend claims that were never entered in the application.

Applicants are reminded that "when claims are added, they must be numbered by the applicant[s] consecutively beginning with the number next following the highest numbered claim previously presented (whether entered or not)" (emphasis added). 37 CFR 1.126 (effective Dec. 1, 1997); MPEP 608.01(j) (Rev. 1, Feb. 2000).

2. Because the amendment has not been entered, applicants' arguments with respect to the amendment are moot. The prior art rejections stand for the reasons set forth in the final rejection, Paper No. 12, and for the reasons set forth in the Advisory action mailed on May 11, 2001, Paper No. 16, attachment, paragraph 5.

Application/Control Number: 09/000.330

Art Unit: 1753

Because the amendment has not been entered, the objections and rejections under 35 USC 112, second and first paragraph, stand for the reasons set forth in the final rejection, Paper No. 12, and in the advisory action mailed on May 11, 2001, Paper No. 16, attachment, paragraph 4. The additional evidence filed with the amendment after final rejection filed in Paper No. 17 on Jul. 23, 2001, has not been considered. See attached form PTOL-303, item (7). The objections and rejections with respect to the intrinsic viscosity and the heat distortion temperature were not issues newly raised in the final rejection. They were previously presented in the Office action mailed in Paper No. 7 on Jun. 4, 1999, and again in the action mailed in Paper No. 10 on Jan. 12, 2000.
